- Proficient: React, Axios, Next.js
- Familiar: Express.js, React Native, Flutter, Vue.js

Database :

- Proficient: Phpmyadmin, MySql workbench
- Familiar: Firebase, PostgreSql

Tools:

- Git, Jira, Sourcetree, DBeaver, AWS

LANGUAGES

- Thai: Native
- English: Proficient

EXPERIENCE

PetPaw Co.,Ltd

Apr-Jun 2023

QA Intern - Summer internship program

- Mobile testing, Designing test cases, Automation testing

Say digital Co.,Ltd (MOHARA)

Nov 2023 - May 2024

Software Engineer Intern- Cooperative Education Program

- Developing CMS system for residential equipment maintenance tracking and management.

Say digital Co.,Ltd (MOHARA)

Jul- 2024 - Present

Juinor Software Engineer

- Worked on assigned projects, primarily focusing on Frontend development with API integration.

PROJECTS

CMS SYSTEM FOR MAINTENANCE OF RESIDENTIAL EQUIPMENT

- Developed a web-based maintenance request system for managing household equipment issues, allowing admins and users to submit, track, and verify requests. Improved efficiency in data handling and reduced delays in service reporting.

Image data management system

- Designed an online platform for managing digital image datasets to support image classification model development. The system allows configurable access sharing and emphasizes PDPA compliance and research ethics. Submitted as a research project for the AUCC competition.
